Hiring Manager
Castack
N/A

Re: Application for MERN Stack Developer

Dear Hiring Manager,

I am writing to express my strong interest in the MERN Stack Developer position at Castack. I hold a B.Sc. in Computer Science and Engineering from Mawlana Bhashani Science and Technology University and specialize in building modern, scalable web applications using MongoDB, Express.js, React.js, Node.js, PostgreSQL, Prisma ORM, and TypeScript.

Through my work on full-stack projects such as YourRENT and YourDelivery, I have hands-on experience designing and delivering end-to-end web features. On YourRENT, for instance, I engineered a multi-role rental marketplace using Next.js App Router, Express.js, and PostgreSQL with Prisma ORM, implementing JWT authentication, route guards, typed service layers, and digital payment processing. On YourDelivery, I structured MongoDB database workflows and built responsive management dashboards while leveraging AI-assisted development workflows to optimize code quality and speed.

I am excited about Castack's focus on real-world web development, problem-solving, and developer growth. My complete technical alignment with your preferred stack and practical project experience prepare me to contribute effectively to your engineering team from day one.

Sincerely,

Abdullah Muhammad Siam
