**Re: Application for Frontend Developer**

Dear Hiring Manager,

I am writing to express my strong interest in the Frontend Developer position. I hold a B.Sc. in Computer Science and Engineering from Mawlana Bhashani Science and Technology University and specialize in building modern, responsive, and high-performance web applications using React.js, Next.js, TypeScript, JavaScript, and Tailwind CSS.

Through my work on production-grade projects such as YourRENT and YourDelivery, I have hands-on experience driving frontend development across the software lifecycle. On YourRENT, for instance, I built a mobile-first, dark-mode rental marketplace UI using Next.js App Router, TypeScript, and Tailwind CSS, featuring debounced property search filters, typed service layers, and unit/E2E testing. On YourDelivery, I developed intuitive client and administrative dashboards while integrating RESTful APIs to deliver seamless user experiences across devices.

I am eager to contribute my frontend expertise, component design skills, and strong technical foundation to your engineering team. My practical project experience aligns directly with your responsibilities for creating scalable, high-quality user interfaces, and I look forward to the opportunity to discuss how I can add value to your projects.

Sincerely,

**Abdullah Muhammad Siam**
