Hiring Manager
Visual i Limited
banani, dhaka

Re: Application for Junior Developer

Dear Hiring Manager,

Dear Hiring Team,

I am writing to express my strong interest in the Junior Developer position at Visual i Limited. I hold a B.Sc. in Computer Science and Engineering from Mawlana Bhashani Science and Technology University and specialize in building modern, responsive, and user-friendly web applications using React.js, Next.js, JavaScript, HTML5, CSS3, and Node.js.

Through my work on production-grade projects like YourRENT and YourDelivery, I have hands-on experience assisting with end-to-end web development, maintenance, and debugging. On YourRENT, for instance, I built a mobile-first, dark-mode user interface using Next.js App Router, TypeScript, and Tailwind CSS, implementing debounced property search filters and typed service layers. On YourDelivery, I developed client and administrative dashboards while integrating RESTful APIs to deliver seamless user experiences across devices.

I am excited about Visual i Limited's international projects and collaborative environment. My strong computer science foundation, practical frontend/full-stack project experience, and eagerness to learn new technologies prepare me to contribute effectively to your development team in Banani, Dhaka.

Sincerely,

Abdullah Muhammad Siam
