CAREER OBJECTIVE

I have spent my recent time building a solid baseline in frontend engineering, focusing on JavaScript, TypeScript, Next.js, and React.js. By building personal projects, I learned to turn Figma designs into responsive user interfaces, build clean components with Tailwind CSS, and seamlessly consume RESTful APIs. I am looking for my first full-time role as a Frontend Developer at CodeItDevs, where I can quickly adapt to your development workflow and contribute by building clean, responsive, and accessible interfaces.

TECHNICAL SKILLS

- **Languages:** JavaScript (ES6+), TypeScript, SQL
- **Frontend:** Next.js, React.js, React Router, HTML5, CSS3, Tailwind CSS, Bootstrap, Shadcn UI
- **Backend:** Node.js, Express.js, REST APIs, JWT Authentication
- **Database:** PostgreSQL, MongoDB, Prisma
- **Tools:** Git, GitHub, Figma, Vercel

PROJECTS

1. YourRENT (Property Rental Platform) — Live Demo | Backend Code | Frontend Code

TECH: Next.js · Express.js · PostgreSQL · Prisma · TypeScript · JWT · Tailwind CSS

A full-stack rental management system with secure authentication, property filtering, booking management, and responsive UI.

- Implemented JWT authentication with role-based access, property search/filtering, and dynamic booking management.
- Resolved Vercel serverless CORS preflight issues and improved API request handling with token validation checks.
- Designed a mobile-responsive interface with custom pagination and state management using Next.js and Tailwind CSS.

2. YourDelivery (Courier Service) — Live Demo | Backend Code

TECH: Express.js · TypeScript · Prisma · PostgreSQL · Stripe · JWT · Zod Toastify

Full-stack courier backend for booking parcels, tracking deliveries, managing agents, and handling customer payments.

- Enables customers to book parcels with pickup and delivery addresses, parcel details, and payment preferences.
- Manages agent assignments and delivery status transitions from pickup through in-transit and final delivery.
- Provides customers with unique tracking IDs and complete delivery histories for transparent parcel monitoring.

3. Master Chefs (Recipe & Chef Site) — Live Demo | Backend Code | Frontend Code

TECH: React.js · Bootstrap CSS · Express.js · React Router · JWT · MongoDB

A full-stack recipe and chef platform with authentication, protected routes, CRUD operations, and responsive design.

- Implemented user registration, login, and data ownership so each user manages only their own data.
- Restricted recipe and chef sections to authenticated users through protected routes and JWT authentication.
- Designed a clean, mobile-responsive UI using Bootstrap 5.

EDUCATION & TRAINING

1. **B.Sc. (Engg.) in Computer Science and Engineering**
   Mawlana Bhashani Science and Technology University, Tangail
2. **Next Level AI-Driven Software Engineering Bootcamp**
3. **Complete Web Development**
