Hiring Manager
Celestials Technologies

Re: Application for MERN Stack Developer

Dear Hiring Manager,

I am writing to express my strong interest in the MERN Stack Developer position at Celestials Technologies. I hold a B.Sc. in Computer Science and Engineering from Mawlana Bhashani Science and Technology University and specialize in building modern, scalable web applications using MongoDB, Express.js, React.js, Node.js, and TypeScript.

Through my work on production-grade projects like YourRENT and YourDelivery, I have hands-on experience designing and delivering end-to-end full-stack solutions. On YourRENT, for instance, I engineered a multi-role rental marketplace using Next.js App Router, Express.js, and PostgreSQL with Prisma ORM, featuring JWT authentication, route guards, typed service layers, and digital payment integrations. On YourDelivery, I structured MongoDB database workflows, built responsive management dashboards, and designed RESTful API endpoints, prioritizing clean architecture, logical query structuring, and UI performance.

I am excited about Celestials Technologies' commitment to building impactful web products and fostering developer growth. My solid computer science foundation, complete alignment with your MERN stack requirements, and proactive problem-solving mindset prepare me to contribute effectively to your development team.

Sincerely,

Abdullah Muhammad Siam
