Hiring Manager
Sagegrey Tech

Re: Application for Full Stack Developer

Dear Hiring Manager,

I am writing to express my strong interest in the Full Stack Developer position at Sagegrey Tech. I hold a B.Sc. in Computer Science and Engineering from Mawlana Bhashani Science and Technology University and specialize in building modern, scalable web applications using React.js, Next.js, TypeScript, Node.js, Express.js, and SQL/NoSQL databases.

Through my work on production-grade projects like YourRENT and YourDelivery, I have implemented complete software development lifecycle solutions. For instance, on YourRENT, I developed a multi-role rental marketplace using Next.js App Router, Express.js, and PostgreSQL with Prisma ORM, featuring JWT authentication, route guards, typed service layers, and integrated Stripe payments. On YourDelivery, I engineered client and admin dashboards, developed RESTful API endpoints, and managed MongoDB database workflows, prioritizing query optimization, clean architecture, and UI performance.

I am excited about Sagegrey Tech's remote opportunity and your commitment to building high-quality digital products. My solid technical stack, clean coding standards, and hands-on full-stack project experience align directly with your requirements, and I look forward to contributing to your software development team.

Sincerely,

Abdullah Muhammad Siam
