Hiring Manager
Synkrew Solutions

Re: Application for Full-Stack Web Developer

Dear Hiring Manager,

I am writing to express my strong interest in the Full-Stack Web Developer position at Synkrew Solutions. I hold a B.Sc. in Computer Science and Engineering from Mawlana Bhashani Science and Technology University and specialize in building modern, scalable web applications using React, Next.js, JavaScript, TypeScript, Node.js, and SQL/NoSQL databases.

Through my work on full-stack projects such as YourRENT and YourDelivery, I have implemented end-to-end web solutions featuring role-based dashboards, secure RESTful APIs, database management with Prisma and MongoDB, and digital payment integrations. For instance, on YourRENT, I engineered a multi-role rental marketplace using Next.js App Router, Express.js, and PostgreSQL, focusing on UI performance, typed API layers, and optimized state management. Additionally, my background includes AI-driven software engineering workflows, allowing me to learn new technologies quickly and ship production-grade code efficiently.

I am excited about Synkrew Solutions' remote opportunity and your focus on strong technical fundamentals and continuous learning. My solid web stack foundation and hands-on project experience align directly with your requirements, and I look forward to contributing to your engineering team.

Sincerely,

Abdullah Muhammad Siam
