Hiring Manager
Zap Innovations

Re: Application for Frontend Developer Intern

Dear Hiring Manager,

I am writing to express my strong interest in the Frontend Developer Intern position at Zap Innovations. I hold a B.Sc. in Computer Science and Engineering from Mawlana Bhashani Science and Technology University and specialize in building modern, responsive user interfaces using React.js, JavaScript, HTML5, CSS3, and Tailwind CSS.

Through my work on projects such as YourRENT and YourDelivery, I have hands-on experience converting design wireframes into clean, functional component architectures while integrating backend RESTful APIs. For instance, on YourRENT, I developed a mobile-first, responsive user interface with debounced search filters and a typed service layer that optimized frontend API communication. Additionally, I utilize Git and GitHub daily for version control, feature testing, and debugging.

I am excited about Zap Innovations' focus on building innovative web projects and fostering developer growth. My solid frontend foundation, practical component building experience, and eagerness to learn prepare me to contribute effectively to your engineering team during this internship.END

Sincerely,

Abdullah Muhammad Siam
