Hiring Manager
eManager IT

Re: Application for MERN Stack Developer

Dear Hiring Manager,

I am writing to express my strong interest in the MERN Stack Developer position at eManager IT. I hold a B.Sc. in Computer Science and Engineering from Mawlana Bhashani Science and Technology University and specialize in developing scalable, full-stack web applications using React.js, Next.js, TypeScript, Node.js, Express.js, and MongoDB.

Through my work on production-grade projects such as YourDelivery and YourRENT, I have engineered robust client and server architecture. For example, on YourRENT, I developed a multi-role rental marketplace using Next.js App Router, Express.js, and Prisma ORM, implementing debounced search filters, typed service layers, and secure RESTful APIs. On YourDelivery, I managed MongoDB and PostgreSQL database schemas while building responsive management dashboards and digital payment workflows.

I am eager to contribute my MERN stack proficiency, TypeScript experience, and strong problem-solving skills to eManager IT's engineering team. My hands-on project experience aligns directly with your technical requirements, and I look forward to the opportunity to discuss how I can add value to your on-site development projects in Dhaka.

Sincerely,

Abdullah Muhammad Siam
